

PROJECT

By Optimum

Contemporary, intelligent furniture designed to house your technology and sit beautifully in your home. Our new collection “Project” includes practical and functional TV stands, AV cabinets and storage accessories that work for you.

We have been championing the best of British design since 1996 and our latest contemporary collection is a showcase of all this experience. Hand-finished in custom-made glass panels in an unlimited colour palette with classically engineered features, accented with an original aluminium trim.

The collection displayed here is just the start of Project's potential. All Project AV Cabinets are designed to fit together, creating continuous displays of TV stands, audio cabinets and storage units. Our range can be mixed and matched in any combination of colours to suit your interior design scheme.

Each media cabinet can be custom-built to your exact specifications with alternative panel configurations, sizes and compartments to perfectly match your technology requirements.

If you would like to create something completely bespoke all of our products can also be pantone-matched to your specification.

ISO SERIES TURNTABLE CABINET

[PRO650TT]

The Iso Turntable Cabinet is the perfect addition to your TV stand, offering low-lying space for a full-sized audio amplifier below a dedicated turntable shelf with our Infrared Repeater included. (Shown in Fjord Blue).

DIMENSIONS

Width: 650mm
Height: 400mm
Depth: 500mm

FEATURES

- + Matching full-size bespoke glass panel flip-down door and turntable lid.
- + Push-to-open soft release door and lid mechanism.
- + Dedicated turntable shelf finished to show off your technology.
- + Hidden soft-roll wheels allow the cabinet to move even when fully laden.
- + Integrated ventilation designed to draw air through the cabinet.
- + Cable management channels between internal compartments.
- + Removable back panels for easy access to components.
- + Hidden levellers adjust to the topography of your floor.

ISO SERIES STORAGE CABINET

[PRO650DD]

PRO650DD

Add on some extra media storage with the Iso PRO650DD geometric storage cabinet with double hand-finished glass panel drawers and aluminium trim. (Shown in Cardinal Red).

DIMENSIONS

Width: 650mm
Height: 400mm
Depth: 500mm

FEATURES

- + Double glass panel drawers conceal space for extra media storage.
- + Push-to-open soft release flip-down door mechanism.
- + Hidden soft-roll wheels allow the cabinet to move even when fully laden.
- + Integrated ventilation designed to draw air through the cabinet.
- + Cable management channels between internal compartments.
- + Removable back panels for easy access to components.
- + Hidden levellers adjust to the topography of your floor.

ISO SERIES AV STORAGE CABINET

[PRO650GG]

Expand your AV component storage with the Iso PRO650GG storage cabinet with space for two more components and with our Infrared Repeater included. (Shown in Saffron Yellow).

DIMENSIONS

Width: 650mm
Height: 400mm
Depth: 500mm

FEATURES

- + Double half-height glass panel doors conceal space for AV components or storage.
- + Push-to-open soft release flip-down door mechanism.
- + Hidden soft-roll wheels allow the cabinet to move even when fully laden.
- + Integrated ventilation designed to draw air through the cabinet.
- + Cable management channels between internal compartments.
- + Removable back panels for easy access to components.
- + Hidden levellers adjust to the topography of your floor.

OUTLINE SIDE TABLE

OUTLINE SERIES
